

Dear Parents,

You are visiting Grade 3 at Sacred Heart School. Grade Three will be studying about Helen Keller. We will also be learning basic sign language throughout the year.

In Social Studies we are studying the many communities that we belong to in our world. We are also learning about Washington D.C and writing letters to the President. In Science we study matter, the moon, weather, life sciences, and the human body.

And in math we will be competing in our multiplication tournament as we get ready for Grade 4.

We always look forward to December where we perform a Polar Express Narrative Play.

Mrs. Rotondo
