

Day Care

The Sacred Heart Nursery School & Day Care Center was developed to provide quality instructional child care for families in our community.

The Center opened on September 18, 1993 after being licensed by the Rhode Island Department for Children and Their Families.

It is our philosophy to motivate and encourage children to develop to their highest possible level. Our major role is to establish a physical, social, emotional, intellectual and active environment where the children will learn by doing. Our program will provide active experiences in the following programs: Health, Cooking, Language Arts, Social Development, Mathematics, Music, Physical Development, Arts and Crafts, and Basic Sense of Religion.

If you have any questions or would like to arrange an appointment to register your child, please contact the center at 401.434.2462 or Father Peter Di Tullio, SC, Ed.D. at 401.434.0326.
